Team Contributes – Vyasa Aditya, Abhishek Apurva, Gaurav Kumar

Title – College Placement Analyzer

Team Members roles -

Gaurav-project proposal

Aditya-data collection

Abhishek-data cleaning

Gaurav-data analytics

Aditya-data visualization

Abhishek-interactive dashboard

Description for what our idea is :-

College Placement Analyzer bridges the campus-to-corporate divide. It maps student competencies directly against company job profiles, pinpointing skill gaps to provide clear, targeted roadmaps for dream roles. Simultaneously, recruiters gain transparent visibility into verified student strengths, streamlining talent discovery and making hiring precise, predictable, and data-driven for everyone.
